TO ENACT ANY CODE DIAL *9

1. Dial *9. This can be done from any phone in the hospital including patient rooms.
The switchboard operator will immediately answer. Do not dial "0".
2. Give the necessary code and the exact location, i.e. "Code Red, 4West, Room 464".
3. When the emergency is under control, dial *9 again and report all clear or "Code 100" to the operator.
