

SPEAKERS

53RD ANNUAL CLEFT PALATE &
CRANIOFACIAL ANOMALIES SYMPOSIUM

Gregory 'Kyle' Fulton, M.D., Assistant Professor of Clinical Pediatrics, Louisiana State University Children's Hospital, New Orleans
Barbara Moore, MA, CCC-SLP, CHOC Craniofacial Team, private practice
Aaron Tanner, MA, CCC-SLP, CHLA Craniofacial Team

SUPPORT

Support and leadership for the Cleft Palate Symposium's professional and community outreach have been provided by Michael Ricks, Chief Executive Officer, and Medical Directors Danelle Fisher, MD and Reza Jarrahy, MD along with the Saint John's Foundation. We continue to explore advances in behavioral, as well as reconstructive disciplines which contribute to improved outcomes for individuals with cleft palate and craniofacial anomalies. We look forward to sharing and learning with our patients, colleagues and the community.

SPECIAL THANKS

The staff of Saint John's Cleft Palate Center expresses its sincere appreciation for the generous continuing support we receive through the Saint John's Foundation. We would especially like to recognize the Native Sons of the Golden West.

53RD ANNUAL CLEFT PALATE & CRANIOFACIAL ANOMALIES SYMPOSIUM

ALL ABOUT THE
best
OUTCOMES

PRESENTED BY THE CLEFT PALATE CENTER
AT SAINT JOHN'S HEALTH CENTER

Saint John's
Health Center
Providence

FOCUS

Providing care for children with cleft lip and/or palate requires carefully coordinated multidisciplinary care from birth through young adulthood. As the child grows, it is critical the Cleft Palate Team supports various treatment strategies which will ensure the ultimate clinical outcomes.

Presentations will address our recommended clinical practices every step of the way to ensure the best outcomes for children having craniofacial differences.

Our guest speaker, Dr. Gregory Kyle Fulton, is a fellowship trained craniofacial pediatrician from the Craniofacial Team Children's Hospital New Orleans and he will discuss the desired treatment timeline for ensuring ultimate best outcomes. Team specialists will discuss in more detail various aspects of

treatment followed by a Parent Panel discussing their journey through team care. Afternoon workshops will be devoted to specialized treatment recommendations in areas of speech pathology, orthodontics/surgery and as well as the total child.

LEARNING OBJECTIVES

- Participants will be able to describe common issues in the cleft population
- Participants will be able to explain the roles of interdisciplinary team care specialties for optimal patient outcomes
- Participants will be able to identify new techniques in cleft care appropriate to their specialty.

PROGRAM

53RD ANNUAL CLEFT PALATE & CRANIOFACIAL ANOMALIES SYMPOSIUM
