

Coordinating Care for a Better Patient Experience

Patient Services and Support at Every Stage of Illness

Providence Home Health

Home-based, professional health care services for those who cannot easily leave their homes for doctors' appointments or therapy treatments

Home health provides:

- Nursing services, including wound care
- Physical, speech and occupational therapies
- Medical social work*
- Mental health nursing
- Nutritional therapy
- Home health aides
- On-going assessment
- Referral to and collaboration with other services, as needed

Medicare patients must have a medical necessity and meet "homebound" criteria to receive home health services.

For information, call:

Portland/Yamhill: **503-215-4646**

Hood River/The Dalles: **541-387-6339**

North Coast (Seaside): **503-717-7788**

Providence Home Health Palliative Care*

A program designed for patients who have chronic medical conditions or life-limiting illness and their families

Providence Home Health Palliative Care provides all home health services.

Working with your private physician, we can help you:

- Coordinate care as you continue to receive treatment
- Manage pain and symptoms
- Connect with spiritual care through Providence chaplain services
- Remain safe and independent in your home

Providence Home Health Palliative Care is a home health benefit. Patients are required to meet Medicare "homebound" criteria to qualify for services.

For information, call:

Portland/Yamhill: **503-215-4646**

Hood River/The Dalles: **541-387-6339**

**Not all services are available in all areas*

Providence Connections*

Palliative care consultation service
Offering support to patients and family members, including follow-up telephone support

Working with your doctor, Connections doctors, nurse practitioners, social workers and chaplains can help you:

- Learn about your diagnosis
- Know what to expect during the course of illness
- Identify your options for care
- Communicate your goals for care to your doctor and family members
- Make decisions about your care
- Manage pain and symptoms

Connections Companion Program offers case management and volunteer support.
