How do you know if someone has a mental illness?
Only a mental health professional can diagnose a mental illness. If you think you are going through a difficult time with your mental health, it is important to ask for help and talk to family or friends. If you think someone you know is going through a difficult time, it is important for you to speak up or find someone you trust to do so. This is the first step to helping someone you care about get the support they need.

Who are St. Jude Medical Center’s target audiences for Each Mind Matters?
St. Jude Medical Center is reaching out to all community members to join together and promise to open hearts and minds to a new understanding of mental wellness for everyone.
Why is talking about mental health as a community so important?
When it comes to health, our minds deserve the same attention as our bodies. Shame and embarrassment are barriers to mental wellness. They create fear, pain, and injustice that stop people from reaching out for help when they need it. When we talk and help each other, we can improve our community.

What is St. Jude Medical Center trying to achieve with its local Each Mind Matters effort?
The campaign reminds us that mental health is an integral part of each of us as humans. It is an opportunity to help create communities where everyone can readily find a path to the help or support they need.

How do individuals participate in Each Mind Matters locally?
