Laboratory's Affirming Inspection

St. Joseph Hospital Laboratory caregivers scored a successful College of American Pathologist (CAP) inspection. This rigorous inspection occurs every two years and covers all laboratory departments, including chemistry, hematology, microbiology, transfusion services, phlebotomy, processing, surgical pathology, cytology and point-of-care testing. It also involves inspection of Respiratory Services. Kudos to SJO Laboratory and Respiratory caregivers for their dedication in providing quality information for the care of our patients.
