

Epic training curriculum matrix by specialty

Most physicians will need an average of 10 hours of training and four hours of time in the proficiency and learning lab. This is typically delivered in three sessions (two classes and one lab) each of 4-5 hours in duration. The type of training you receive will differ based on your specialty. **Most subspecialties will do the same training as inpatient providers.** If you are uncertain which track you should take, please contact the Medical Staff Office. Specific training tracks:

- Anesthesia provider
- ED physician
- Inpatient physician/neonatology/maternal-fetal medicine, nurse practitioner, physician assistant (not previously trained on EpicCare Ambulatory)
- Inpatient physician/neonatology/maternal-fetal medicine, nurse practitioner, physician assistant (previously trained on EpicCare Ambulatory – PMG)
- Inpatient surgeons/cardiology/IR/First Assists/physician assistants
- Inpatient oncologist
- Inpatient physician obstetrician/midwife
- Radiologists*
- Inpatient provider (infrequent – less than 10 visits a year)**
- Inpatient radiologist (infrequent – less than 10 visits a year)*
- Anesthesia provider (previously Epic trained)
- ED physician (previously Epic trained)
- Inpatient physician, nurse practitioner, physician assistant (previously Epic trained)
- Inpatient surgeons/cardiology/IR/physician assistants (previously Epic trained)
- Inpatient oncologist (previously Epic trained)
- Inpatient physician obstetrician/midwife (previously Epic trained)
- Radiant radiologists (previously Epic trained)*
