Executive Sponsor:	Sheryl Vacca, SVP, Chief Risk Officer

Contact Person:	Patricia Anglin, Sr. Compliance Manager

Scope:

This policy applies to Providence St. Joseph Health and its Affiliates (collectively known as "PSJH") and their caregivers (employees); employees of affiliated organizations. This policy applies to all affected and interested persons, as defined below, who are in positions that have influence over the affairs of PSJH and who have a direct or indirect financial interest in PSJH. This is a governance-level policy.

Purpose:

To establish PSJH standards and responsibilities for addressing potential or real conflicts of interest or unethical or unlawful practices and to ensure that health care, education, research, investment and other activities are conducted free from undue influence or the perception of such influence arising from outside obligations.

Definitions:

- "Affected person" refers to any employed or contracted: executive; health care administrator; department head (generally director or above); school administrator; medical director and other physician in a leadership position within PSJH; purchasing agents/buyer; those on committees that recommend or approve formularies or the purchase of medical devices, supplies, and equipment; those who recommend or approve investments by PSJH; and a consultant acting on behalf of PSJH in any of the aforementioned positions.
- "Interested person" refers to any PSJH Board member or member of a local ministry board, community board, advisory board, foundation board, committee with board- delegated powers, or similarly situated governing body (collectively referred to as the Board). If a person is an interested person with respect to any entity of which PSJH is a part, he or she is an interested person with respect to all entities in PSJH.
- "Conflict of interest (COI)" refers to a situation in which the personal and/or professional interests of a person performing duties on behalf of PSJH might appear to influence the objectivity of that person in carrying out her/his official duty to PSJH. A COI situation does not prove influence was exerted.
- "External compensation" refers to any direct or indirect remuneration in any form, including wages, fees, honorarium, gifts, favors, loans or discounts when receipt is related to the performance of duties on behalf of PSJH. Additional guidance on external compensation is available through your PSJH contact.
- "Immediate family member" – the following relationships constitute a family member:

Spouse, partner or similar relationship	Children (and their spouses/partners)
Parents	Grandparents and great- grandparents
Grandchildren	Siblings
Legal Guardians	Cousins
Nieces	Nephews
Aunts	Uncles
Step and in-law relatives of all of the preceding categories	

- "Financial Interest" refers to a situation where an affected or interested person or his/her immediate family member has a financial relationship with PSJH. In general a financial relationship is a direct or indirect ownership interest, investment

interest or compensation arrangement with PSJH and/or any entity that conducts or proposes to conduct transactions with PSJH. Specifically for purposes of this policy, a financial interest includes:

- a. An ownership or investment interest in any entity or business in which PSJH has a transaction or arrangement, including any entity, business, investment fund, convertible debt or equity investment in early stage companies, limited partnerships or joint ventures in which PSJH invests ("Investment Vehicles"), *except* investments in publicly traded securities valued at less than \$10,000 or that are managed in a mutual fund; exchange traded fund; or other similar financial instrument; or
- b. A compensation arrangement with PSJH or with any entity, business or individual with which PSJH has a transaction or arrangement; or
- c. A potential ownership or investment interest in, or compensation arrangement with, any entity, business or individual in which PSJH is negotiating a transaction or arrangement, including Investment Vehicles, *except* for investments in publicly traded securities valued at less than \$10,000 or that are managed in a mutual fund; exchange traded fund; or other similar financial instrument.

7. "Inurement" refers to an improper economic advantage that can accrue to an officer, director, or other insider (i.e., a person who is in a position to exercise substantial influence over the entity's affairs) of a charitable organization. Charitable organizations are prohibited from providing private inurement and can lose tax- exempt status if they do so.

8. "Ministry or facility" is defined as all entities of which PSJH is the sole or majority member or shareholder, including, but not limited to, hospitals, home health and hospice agencies, physician practices, long-term care facilities, health plans, housing facilities, schools and departments within those entities.

9. "Vendor" refers to any existing or potential manufacturer, distributor, supplier or service organization, and their salespersons, representatives, or other employees.

Policy:

Affected and interested persons are required to maintain appropriate relationships with third parties, including patients and their families, health care practitioners, donors, suppliers, subcontractors and competitors so no third-party has an opportunity or appears to have an opportunity to inappropriately influence PSJH decisions or activities. A COI occurs when an individual's personal interests diverge from his or her professional obligations to PSJH. When this occurs, an independent observer may reasonably question whether an individual's professional actions or decisions are determined or affected by considerations of personal gain or benefit, whether financial or otherwise.

Affected and interested persons shall complete PSJH's Confidentiality and Conflict of Interest Disclosure Form within 45 days of hire or engagement and annually thereafter. Failure to disclose an interest in accordance with this policy may result in removal from a Board or corrective actions for PSJH employees, consultants or others as appropriate.

PSJH maintains a Conflict of Interest in Research (COIR) policy applicable to the research environment. The COIR policy's requirements are in addition to the requirements of this policy, as applicable.

This policy incorporates Internal Revenue Service requirements necessary to establish the reasonableness of PSJH transactions with persons in a position to exercise substantial influence over the affairs of PSJH, and who have a direct or indirect financial interest in PSJH. This policy supplements applicable state laws governing conflicts of interest for nonprofit and charitable corporations.

This policy is not intended to restrict employees from engaging in concerted activity to improve the terms and conditions of their employment in accordance with applicable federal and state laws.

Requirements:

Required Disclosures: Affected and interested persons are required to disclose potential conflict of interest situations on their annual disclosure form and on a situational basis for any situation occurring during the year. The following items are a non-exclusive list of items that must be reported:

family member) have any financial interest of \$10,000 or more (including ownership of stock, stock options, equity, debt, other securities, other form of ownership interest, salary or other remuneration for services as a consultant, officer, or board member) in any business or health care enterprise that does business with PSJH.

Personal Business Transactions with PSJH: A situation in which they directly or indirectly own, trade, or deal in real estate, materials, supplies, equipment or other property with the intent of selling, renting or contracting to PSJH. In addition, no affected person shall simultaneously work as a consultant for PSJH or otherwise be compensated by PSJH for personal services.

Employment of Relatives and Partner Relationships in the Workplace: PSJH employees shall disclose any situation in which their relationship with a Family Member results in a potential, perceived or actual conflict of interest. A conflict of interest may be the result of a direct reporting relationship (e.g., a supervisory relationship) or an indirect reporting relationship (e.g., if one employee holds a position which may influence the status or compensation of a Family Member).

Improper use of PSJH resources for personal gain or the gain of another person.

Employees may not use their position at PSJH as the impetus to start a manufacturing, service or consulting business that depends on PSJH confidential information and/or specific operations knowledge obtained on the job at PSJH or which utilizes PSJH resources/facilities.

Prohibition of Co-Investments. Affected and interested persons are prohibited from knowingly co-investing alongside PSJH in any Investment Vehicle in which PSJH has a financial interest or in which PSJH has entered into an agreement to pursue an investment. If an affected or interested person unknowingly invests in any Investment Vehicle in which PSJH has a financial interest or in which PSJH has entered into an agreement to pursue an investment, the affected or interested person is required to disclose the potential conflict on his or her disclosure form upon obtaining knowledge of PSJH's investment. If PSJH invests directly in an Investment Vehicle that an affected or interested person has already invested in, the affected or interested person is required to disclose the potential conflict on his or her disclosure form upon obtaining knowledge of PSJH's investment.

Prohibition of Sharing Confidential Information regarding Investment Vehicles. Whenever an affected or interested person is in a position at PSJH to gain confidential information regarding Investment Vehicles, the affected or interested person must not share that information with anyone outside of PSJH and those without a need to know. Further, if the affected or interested person has an investment interest in the Investment Vehicle, he/she must recuse her/himself from any deliberation or decision making relating to PSJH's investment in or purchase of items or services from the Investment Vehicle.
