

Why you should schedule your screening mammogram today

If you're 40 or over

We understand why many people delay scheduling an annual screening mammogram.

You've got a life to live, and the last thing you want to think about is breast cancer.

But that's exactly why you should schedule a mammogram today. So you don't have to wonder and you can get back to your life.

It's simple.

People 40 or over don't need a written referral to schedule a screening mammogram.

You could call right now to make an appointment.

It's safe.

Our adherence to COVID guidelines ensures every visit is safe. And our office is small, intimate and friendly.

DO IT TODAY

It's fast.

A mammogram only takes about 15 minutes, and we usually send results to your provider within a day.

It's important.

Mammograms play an important role in early detection of breast cancer, which results in more lives saved.

Why Providence Imaging Center?

Providence Imaging Center has 35 years of experience helping folks like you.

With our compassionate team and advanced tools, we've been recognized as a Breast Imaging Center of Excellence by the ACR.
