Part 1  Choose your medical decision maker

The person who can make health care decisions for you if you are too sick to make them yourself

Whom should I choose to be my medical decision maker?

A family member or friend who:

- is at least 18 years old
- knows you well
- can be there for you when you need them
- you trust to do what is best for you
- can tell your doctors about the decisions you made on this form

Your decision maker cannot be your doctor or someone who works at your hospital or clinic, unless he/she is a family member.

What will happen if I do not choose a medical decision maker?

If you are too sick to make your own decisions, your doctors will turn to family or friends or a judge to make decisions for you. This person may not know what you want.

The kinds of decisions your medical decision maker can make

She or he will be able to choose:

- doctors, nurses, social workers, caregivers
- hospitals, clinics, nursing homes
- medications, tests, or treatments
- what kind of personal care you get, such as where you live
- who can look at your medical information
- what happens to your body and organs after you die
Life support treatments - medical care to try to help you live longer

- CPR or cardiopulmonary resuscitation
  cardio = heart      pulmonary = lungs      resuscitation = to bring back
  This may involve:
  - pressing hard on your chest to keep your blood pumping
  - electrical shocks to jump start your heart
  - medicines in your veins

- Breathing machine or ventilator
  The machine pumps air into your lungs and breathes for you.
  You are not able to talk when you are on the machine.

- Dialysis
  A machine that cleans your blood if your kidneys stop working.

- Feeding Tube
  A tube used to feed you if you cannot swallow. The tube is placed down your throat into your stomach. It can also be placed by surgery.

- Blood transfusions
  To put blood in your veins.

- Surgery

- Medicines

End of life care - if you might die soon your medical decision maker can:

- call in a spiritual leader
- decide if you die at home or in the hospital
- decide where you should be buried or cremated

Write down any decisions you do not want your medical decision maker to make:

Talk to your medical decision maker about this form and your choices.
