

**MEDICAL STUDENT TRAINING POLICY ATTACHMENT
 MEDICAL STUDENT COMPETENCIES
 FOR THE
 EMERGENCY DEPARTMENT**

PROCEDURE	Required Competency for Year 3&4 Medical Students
Anesthesia (local anesthesia only)	*
Arthrocentesis	*
Bladder Catheterization/Irrigation	*
Cardiac Massage (closed)	*
Cardiac Electroconversion	N
Cardiac Electrical Pacing	N
Cricothyrotomy/Tracheostomy	N
CVP Catheter Placement (jugular/peripheral/subclavian)	N
Differential Diagnosis <ul style="list-style-type: none"> • History • Physical Examination • System Review • Laboratory Studies (indications/interpretation) • EKG • Radiographic Studies (indications/interpretations) 	*
Electrocoagulation	N
Entrotracheal intubation (oral/nasal)	N
Foreign Body Removal (subcutaneous only)	*
Fracture/Dislocation/Amputation/Reduction/Immobilization	N
Gastric Lavage	*
Heimlich Maneuver	*
Incision-Drainage	*
Intracardiac Injection	N
Lumbar Puncture	*
Laryngoscopy	N
Nasal Packing/Cautery	*
Nail Trephination/Removal	*
Ocular Tonometry	*
Oxygen Therapy	*
Paracentesis	N
Peritoneal Lavage	N
Pericardiocentesis	N
Respirators (manual, mechanical, pressure, volume)	*
Sigmoidoscopy/Proctoscopy/Anoscopy	N
Skin Grafting	N
Spinal Immobilization, including application of Cervical Traction Tongs	N
Surgical Debridement (superficial lacerations only)	*
Thoracentesis	N
Thoracostomy Tube Drainage	N
Thoracotomy in CPR	N

PROCEDURE	Required Competency for Year 3&4 Medical Students
Use of Slit Lamp	*
Venous Cannulation	*
Wound Repair (cutaneous only)	*
Multiple Trauma Resuscitation A. Essential Elements Timely intervention Diagnosis/treatment Re-evaluation/monitoring B. Initial Approach- Stabilization Respiratory stabilization- airway management Cardiovascular Stabilization Pump Support Hemorrhage Control Volume Replacement C. General Assessment- Working Diagnosis Head/neck injuries Chest injuries Abdominal /G.U. injuries Extremities Fractures Arterial injuries Neurologic injuries D. Definitive Diagnostic Studies	N
Spontaneous Delivery, Episiotomy, and Repair	N
Emergency IVP	N
Catheterization-urethral, suprapubic	*
Any emergency procedure not noted above which would appear indicated to save life or limb, including emergency Caesarean Section in recently deceased mother.	N

A=Adult independent competency

A/P= Adult/Pediatric independent competency

***= With supervision only (May only be performed with supervision)**

N= NOT PERFORMED BY MEDICAL STUDENT (but medical student may assist supervising physician)

I have read and understand the required competencies above.
