

## 2021 COMMUNITY BENEFIT SNAPSHOT

# Providence St. Vincent Medical Center and communities

In 2021, Providence Oregon continued its tradition of compassion and dedication to our communities, with Providence St. Vincent Medical Center investing more than \$196.5 million to improve community health. These targeted investments included \$13.4 million in community health services and \$22 million in free and low-cost care.

### PROVIDENCE INVESTS IN OREGON'S HEALTH

#### SUPPORTING THE NEEDS OF BLACK FAMILIES

In 2021, Providence helped fund the Black Parent Initiative to support the First 1,000 Days program, which includes essential prenatal and postpartum maternal services for Black mothers, and other family resources. The Sacred Roots Doula and Lactation services followed by the Together We Can home visiting program have helped improve birth outcomes and the achievement of child development milestones.

#### EASING ACCESS TO COVID-19 VACCINATION

In support of COVID-19 vaccine accessibility for people of color in the Portland metro area, Providence helped staff 54 community vaccination clinics in 2021 as part of 21 partnerships with local organizations. Health care providers from Providence Medical Group and Medical Teams International administered the COVID vaccine to 2,853 people age 12 and older, including BIPOC community members.

#### HELPING VULNERABLE PATIENTS GET CARE

With a commitment to removing barriers to care for low-income patients, Providence funded the Patient Support Program at all eight Providence Oregon hospitals. Support included helping patients get treatment without worrying about basic needs and helping patients safely transition home. The program served 8,704 clients in 2021, including care for pregnant patients, heart patients and vulnerable seniors.

### GIVING TO OUR COMMUNITIES IN 2021\*

	Community benefit TOTAL	Free and low-cost care	Shortfalls in Medicare	Shortfalls in Medicaid	Community health services	Education and research	Subsidized health services
