

**A 53.9 kilowatt solar array being installed at Providence Brookside Manor was made possible by Pacific Power's Blue Sky renewable energy program customers. Blue Sky is covering roughly 75% of the cost. We are grateful to our partners at Pacific Power and to community members who support renewable energy.**

**Stop by, see the work and watch for a celebration announcement to celebrate the project!**

1550 Brookside Dr, Hood River, OR 97031
