

## Fast answers with the ClinicalKey Mobile App

Leverage insights for better patient outcomes anytime, anywhere with the ClinicalKey mobile app – available for both Apple® and Android™ devices.

- ▶ Open the App Store on your mobile device
- ▶ Search for “ClinicalKey” and install at no charge
- ▶ Once in the app, two options will appear – Click on ClinicalKey
- ▶ Enter your ClinicalKey username and password used for remote access and start using the ClinicalKey App!

### Create an account in 4 easy steps!

1. Go to [www.ClinicalKey.com](http://www.ClinicalKey.com) and click Register in the top right corner.
2. Using the email address associated with your institution, fill in the required information on the registration page.
3. Click Register when finished. ClinicalKey will display an activation message and sends a confirmation email.
4. In the confirmation email, click the link to officially start your remote access\*.

\*This will grant 180 days of remote access. Prior to the end of the 180 days, log into your ClinicalKey personal account while on your institution's IP. This will extend access another 180 days. Should your remote access expire, follow the above steps to re-activate your access.

## Download the ClinicalKey mobile app today.

An internet connection is required to use the ClinicalKey Mobile App. If you have questions regarding your remote access, notify your institutional administrator.

### Registering for ClinicalKey Remote Access

Remote access allows you to easily access ClinicalKey when you're not on your institution's network. The instructions below outline how to activate remote access.

### For Institutional Users with a User Profile/Personal Account

1. To activate remote access, click **Login** at the top of ClinicalKey.

2. From the Login page, click the link under **Remote Access Activation**.

A screenshot of the ClinicalKey login page. The title is 'Login using your Elsevier credentials'. There are input fields for 'Username:' and 'Password:'. A 'Remember me' checkbox is checked. A 'Login' button is present. Below the login options, there are links for 'Not Registered?', 'Forgotten your username or password?', 'OpenAthens login', 'Login via your institution', and 'Other Institution login'. At the bottom, there is a 'Remote Access Activation' link, which is highlighted with a blue border, and a sub-link 'Click here to activate'.

3. Enter the email address associated with your user profile and click **Continue**. ClinicalKey displays an activation message and sends you a confirmation email.
4. Click on the link within the confirmation email to **activate remote access**.
5. Remote access is now activated and you can use ClinicalKey anytime, anywhere when logged into your user profile.

## For Institutional Users without a User Profile/Personal Account

1. Go to [www.ClinicalKey.com](http://www.ClinicalKey.com) and click **Register** in the top right corner.

2. Using the email address associated with the institution that offers you ClinicalKey, fill in the required information on the registration page.

A screenshot of the ClinicalKey registration page. The header is identical to the previous screenshot. The main content area is titled 'Register'. Below the title is a paragraph explaining registration: 'Registration is quick and free. It allows you to personalize these Elsevier Products if you have access. For example you can stay up-to-date with Search Alerts and Document Citation Alerts or keep track of your research with Saved Searches.' There is a link for 'Privacy policy'. The form is divided into sections: 'Your details' with 'First name:' and 'Family name:' fields; 'E-mail and password' with 'E-mail address:' and 'Password:' fields, and a note 'Enter a password between 5 and 200 characters. Your e-mail address will be your username'; and 'Your role:' with a dropdown menu 'Select your role in your organization'. At the bottom, it says 'Please select at least one subject area of interest'.

3. Click **Register** when finished. You now have a ClinicalKey user profile.
4. ClinicalKey displays an activation message and sends you a confirmation email.
5. Click on the link within the confirmation email to **activate remote access**.
6. Remote access is now activated and you can use ClinicalKey anytime, anywhere when logged into your user profile.
