

Accessing the Natural Medicines Comprehensive Database app.

Prior to being able to use the app, you need to create a CE ID#. You will need to do that from a computer onsite at Providence Health & Services.

1. To create a CE ID#, go to www.NaturalDatabase.com from a computer onsite at Providence Health & Services (the computer does need to be linked to the authorized IP addresses we have on file).
2. Click on the upper middle menu link: "CE/CME Center"

The screenshot shows the homepage of the Natural Medicines Comprehensive Database. At the top right, there is a "Logged In" button. The main navigation bar includes links for "Databases", "Tools", "CE/CME Center" (which is circled in red), "Colleagues Interact", "News", and "About Us". Below the navigation bar is a search bar with the placeholder text "Look up a scientific, common, or brand name for any natural medicine" and an "Advanced Search" button. On the left side, there is a vertical menu with links for "Interaction Checker", "Effectiveness Checker", "Nutrient Depletion", "Pregnancy & Lactation", and "Adverse Effects". The main content area features a large image of white capsules and green leaves, with a central text box that reads "NATURAL MEDICINES" and "The most authoritative resource available on dietary supplements, natural medicines, and complementary alternative and integrative therapies." Below this text is a "LEARN MORE" button.

3. From there, click on the "Create a CE ID#" link:

CE/CME Center

Clinical Management Series

Evidence-based CE/CME courses focused on clinical management of disease states and medical conditions.

[View courses available for CE/CME](#)

[View your course history and print statements](#)

[Create a CE ID # if you do not already have a CE ID #.](#)

[Learn more](#)

4. Fill out the form and submit, a CE ID# will be created instantly.
5. You can use this CE ID# to access the database from remote locations or mobile devices.
6. To download the app, go to the app store for Apple devices or GooglePlay for Android devices; search "*Natural Medicines Comprehensive Database*".
7. Download the app, and in the login screen, enter your CE ID# to login. Nothing is needed in the password field, since your users are issued CE ID#s instead of a password, that field is left blank.
