Fax: 425-297-6405

### **Post-Operative Medication Prescription Policy**

You may receive prescriptions for medications after surgery from Cranial, Spine and Joint providers. This will be for a **limited** time and over that time your medications will be reduced.

Our providers are not in clinic every day, please give us 72 business hours prior notice for refills. Refills cannot be made over the weekend, after hours or on holidays. We recommend setting aside 3 days' worth of medications and to call our office for a refill when you need to start taking that reserve.

In most instances, refills can be sent directly to the pharmacy, so please make sure we have the correct pharmacy on file when calling in.

If you are on a Pain Contract with another provider, such as your primary care provider or a pain management specialist, we will return you to their care 30 days after surgery. Please make sure you have scheduled an appointment with that provider for about 30 days after your surgery to meet with them about resuming your pain management care.
