

# Inpatient Rehabilitation

## 2025 Outcomes

### Your Pathway Home Begins with us

At Providence St. Mary Inpatient Rehab, we are dedicated to helping patients transition smoothly from hospital care back to the community. In **2025**, we served **196 persons** with an average length of stay of **9.6 days**. Our focus is on building independence and confidence, so every patient can thrive in their community. **83.7%** of persons we served discharged back to the community and **98.8%** reported **living in the community** 90-days after discharge. We believe that recovery is possible when patients, families and our compassionate team work together toward shared goals. **99%** of persons served reported the program focused on their needs.

Our expert team includes physical, occupational, and speech therapists, nurses, physicians, psychologists, and case managers. This collaborative group works closely to deliver personalized care plans tailored to each persons unique needs. They ensure every aspect of your recovery is supported, from mobility and communication to daily living skills and emotional well-being. Our patients receive an average of **3.7 hours** of therapy per day, 5 days a week.

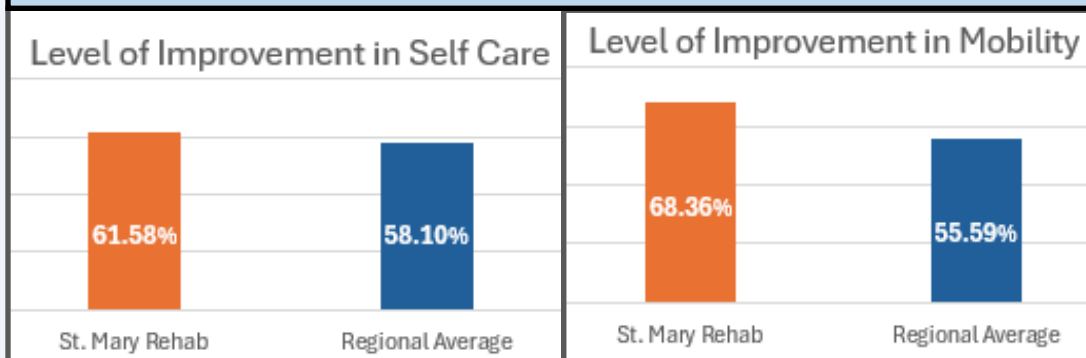

Age of Patients Served	
Age	Number of Patients
18-39	5 (2.6%)
40-64	25 (12.8%)
65-74	48 (24.5%)
75-101	118 (60.2%)
