

### Patients Served

Amputee rehabilitation services are provided by St. Luke's **specialized team** of physicians, rehabilitation nurses, case management, prosthetists, wound care nurses, dietitians, and therapy staff including physical, occupational, psychology, recreational, speech and other therapists. St. Luke's provided Amputee rehabilitation services to **61 patients** in 2022 and our patients received an average of **3 hours** of therapy per day. Our Amputee Specialty program utilizes a comprehensive, **multi-disciplinary team** that works together to provide the best care possible, by using the newest research and latest technologies to maximize the individual goals and successes of each person.
