

In 2022, St. Luke's team provided an average of **3.25 hours** of therapy each day, **over a 5-day span**. St. Luke's is the best choice for getting patients back to a productive life, through excellent care and positive results. We serve thousands of patients each year, as the **largest free-standing** rehabilitation facility and the **only Level 1 trauma** rehabilitation hospital for both adult and pediatric populations in the state of Washington. All St. Luke's Physicians are board certified in rehabilitation medicine. Our consulting physicians and case managers facilitate efficient, seamless transitions, admitting patients **7 days** a week. St. Luke's adheres strictly to **24-hour physician** supervision with coordinated, **multi-disciplinary** rehabilitation care.

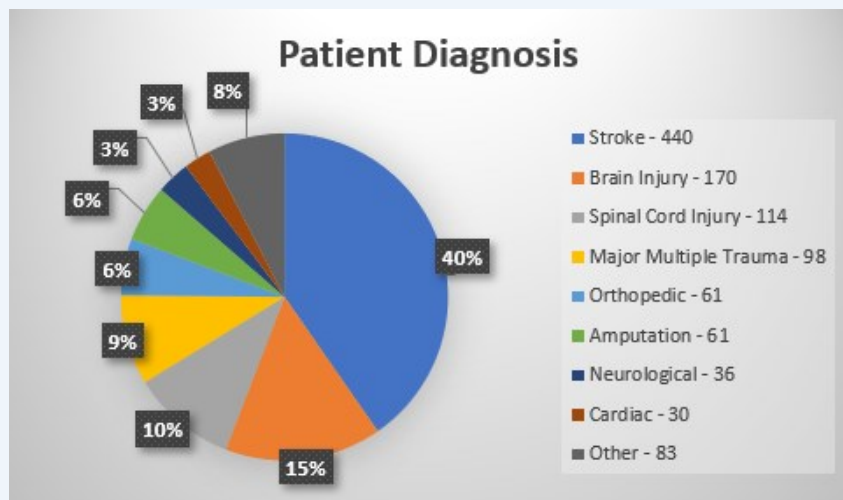

Patient Satisfaction and Quality of Life

Patient satisfaction is key to the success of any health care facility. Based on a national survey (MedTel Outcomes), patients rated the following:

94.8% average satisfaction with St. Luke's

91.4% quality of life improved after rehab

91.4% rehab met the patient's expectations

2022 Inpatient Rehab Program

Age	Number of Patients
0-17	38 (3.5%)
