

### Patients Served

A cerebral vascular accident (commonly called a stroke) can happen to anyone at any age. In 2022, St. Luke's provided inpatient rehabilitation services to more than **440 stroke survivors** with an average length of stay of **14.5 days** in the hospital. At Providence St. Luke's, stroke rehabilitation services are provided by an experienced team of physicians, nurses, case managers, psychologists and therapies including: physical, occupational, recreational, and speech therapy. Our patients receive at least **3 hours** of therapy per day 5 days a week.

Age of patients in Stroke Program:

Age	Number of Patients
0 - 17	8 (1.8%)
18 - 40	20 (4.6%)
41 - 64	145 (33.4%)
65 - 74	109 (25.1%)
75+	152 (35.1%)
